Reliability

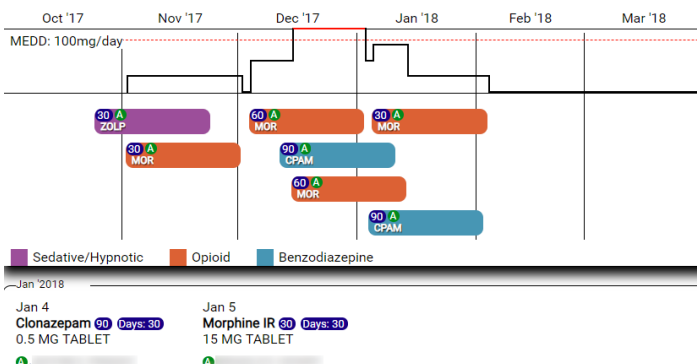

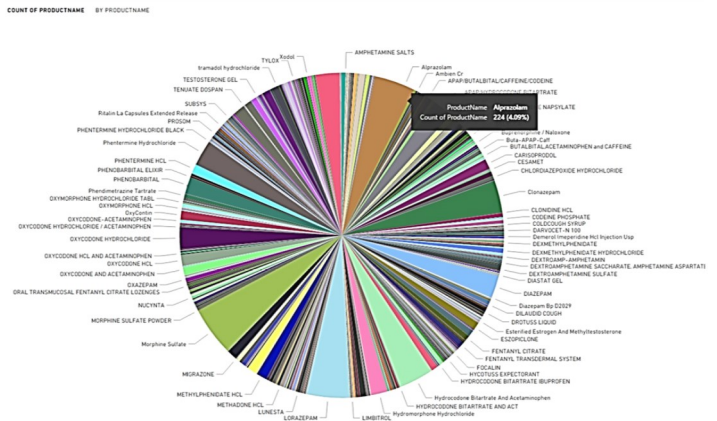

RxDataSystems' PDMP, RxDataTrack, has been providing a comprehensive solution for controlled substance monitoring since 2004. For fifteen years, RxDataSystems has been a pioneer in innovation for end-to-end PDMP solutions.

Meaningful Data

Your Data - when and how you want or need it. 150+ standard/pre-made reports. Unlimited on-demand reports. Customized reports.

Effective Use

The goal is effective practitioner use of the PDMP. Our comprehensive reports, including the innovative RxDataVision, gives medical professionals clear access to the information they need to make sound decisions for patient care.

Scalability & Flexibility

RxDataTrack can be easily and quickly modified to meet individual state needs to meet changes in policy or law, providing ease of use for both administrators and users.
